PROFESSIONAL SUMMARY

Computer Science graduate with a strong customer service foundation and a technical background in systems, cloud, and data. Solves problems daily as a first point of contact for customers and teams, and follows each issue through to resolution. Clear communicator and fast-adaptable learner, looking for an entry-level role to build hands-on experience in support, systems, or cloud engineering.

EXPERIENCE

Heritage Mazda, Bel Air, MD | *Parts Specialist* **Sept 2026 – Present**

- Serve as the first point of contact for customers, repair shops, and internal teams by phone, quickly identifying what each person needs and delivering accurate quotes and parts orders in a high-volume environment.
- Solve new and unexpected problems every day with no set playbook, researching the issue, finding the answer, and following through until it is resolved.
- Coordinate with the service and technician teams to keep repairs moving, communicating clearly with both technical and non-technical people.
- Search and navigate the Mazda parts catalog and ordering systems to identify exact parts, and keep accurate records of orders and customer requests.

Anuban NST School, Nakhon Si Thammarat, Thailand | *Foreign EFL Teacher (TEFL-certified)* **Oct 2025 – Mar 2026**

- Led classrooms of 30+ multilingual students across four subjects, adapting instruction on the fly and resolving issues in real time in a cross-cultural environment.
- Designed interactive lesson plans and built strong working relationships with a diverse staff and student body.

SAIC, Washington DC–Baltimore Area | *Business Development Intern* **Jun 2024 – Aug 2024**

- Collaborated on projects alongside business and software interns, adapting quickly to a professional work environment.
- Worked alongside business interns to revamp the internal company website using Power BI.
- Contributed to a team of developers deploying a web application to AWS Elastic Beanstalk.
- Engaged in team meetings, contributing ideas and strengthening communication skills.

Ursinus Basketball Camp, Collegeville, PA | *Camp Coach* **Jun 2022 – Jun 2024**

- Directed skill-building drills for groups of young athletes across age levels, explaining technical concepts in an accessible, encouraging way.

EDUCATION

Ursinus College, Collegeville, PA | *Bachelor of Science, Computer Science (French Minor)* **May 2025**

GPA: 3.8, Dean's List

Relevant Coursework: Computer Networks, Operating Systems, Computer Architecture and Organization, Software Engineering, Algorithms and Data Structures

The John Carroll School, Bel Air, MD | *High School Diploma* **May 2021**

GPA: 3.5, Honor Roll, Varsity Basketball

SKILLS

- **Systems & Tools:** Linux, Git, Bash, Windows, macOS, MS Office
- **Programming:** Python, JavaScript, C/C++, HTML, CSS, SQL (SQLite, SQLAlchemy)
- **Cloud & Infrastructure:** AWS (EC2, VPC, Elastic Beanstalk), Docker, Terraform, Ansible, Jenkins, CI/CD pipelines
- **Data & Reporting:** Power BI, RESTful APIs, JSON, Selenium WebDriver
